EDUCATION: I'm a Carnegie Mellon University student majoring in Information Systems. I will graduate in May 2011.

TOOLS: HTML/CSS

PHP/Rails

OBJECTIVE: I'm seeking an internship working with web application design and project management for high traffic systems.

Javascript

Perl/C/Java

Cocoa/iPhone

WORK: Boing Boing Software Developer

May 09 - Currently Employed
Telecommuting

I developed custom software solutions for the Boing Boing blog network and **maintained all four of their high-traffic sites**. My work is in high profile locations on Yahoo! and receives around **12M monthly views** through Boing Boing. I just **launched a complete redesign** of their website. I coded the entire site and assisted with the design. Boing Boing is one of Time Magazine's 50 Best Websites for 2009.

Fairchild Semiconductor Global WAN Intern

June 08 - August 08
Portland, ME

I worked with the Global WAN group in the US and Singapore to maintain Fairchild's international network. I completed the list of work for the intern in my **first two weeks** and then went on to make purchase decisions, repair VPN services, write network monitoring scripts and shut down a remote office.

Biddeford Schools Computer Technician / Coordinator

June 06 - August 06 and May 07 - August 07
Biddeford, ME

Repaired, updated and organized **over 400 laptops**.

PROJECTS: DeweyMusic.org

June 08 - Present
Online

I created a website designed to bring a simple interface to Archive.org's **600,000+ song public domain music library**. Dewey has received international exposure and is listed as **one of the top five free music websites** by LoadBlog.de. I am now adapting this as a project students will create in a course on web application development I am TAing this semester. I also created an API for the dataset that you can view at api.deweymusic.org.

Quizzler.org

September 08 - November 08
Pittsburgh, PA

I **led a team of seven students** to create an elegant and user friendly quiz administration application for the IS department.
